# SPAND-GEL™

## HYDROGEL HALF FACE MASK

**STERILE & LATEX FREE**

- Provides cool, soothing relief
- Beneficial for reducing post-op swelling
- Spand-Gel™ Half Face Mask contains moisturizing Hydrogel. The mask provides patient comfort; there is less chance for infection and fewer problems with scarring!

- May be used for a variety of plastic surgeries, cosmetic treatments and surgical procedures that involve the eye or upper nose areas including: Eyelid surgery/Blepharoplasty, Oculoplastics, Ptosis repair, Rhinoplasty, Botox, Collagen, Restylane and other injections, Laser skin resurfacing, Dermabrasion and more!
- A convenient alternative to using leaky ice packs, dripping gauze pads or wet towels. Incredibly light, non-sticky, stays moist!
